Dear Mr. Fernandez:

Mill Valley

As follow-up to our December 2, 2013 phone conversation, we corrected a minor document processing error in the MCSTOPPP 2012-2013 Annual Report, Supplement M, Illicit Discharge section of the Performance Standard Tables. The performance standards for mapping of storm drain systems as reported by our member agencies were inadvertently changed during document processing just prior to submittal.

Novato

These member agencies have completed the mapping activities, as now shown in the corrected Supplement M. Included with this letter is a "redline strikeout" version of the affected pages in Supplement M and a "clean" corrected version of the affected pages in Supplement M.

Thank you for bringing this to our attention and please let me know if you have additional comments on the Annual Report or require additional materials.
